SpaceTEC® K-12 Outreach Program

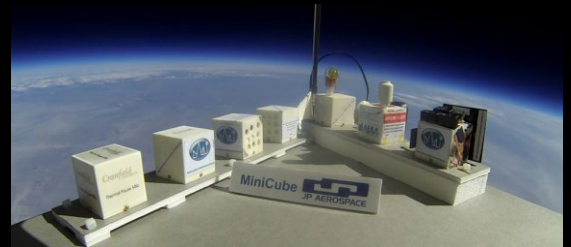

SpaceTEC® has recognized a need for STEM educator resources when it comes to teaching space related activities. In the fall of 2015 SpaceTEC®, working with various partners, will be launching an outreach program to provide primary and secondary STEM educators the tools to teach space, with an emphasis on the role of a Nationally Certified Aerospace Technician® in the aerospace industry.

NSF National Center for Aerospace
Technical Education

Upcoming Projects:

- STEM educator workshops with lesson plans, worksheets, readings, activities, and projects.
- Schools-to-Space.com (STEM educator and student portal to space education resources)
- Partnerships and dual enrollment opportunities
- Mini-Cube Project
- Space Shuttle Lecture Series
- Games, paper and model rocket launches, and much more...
